

# XIAOMI 12T Pro

DANIEL ARSHAM EDITION

## 200MP ultimate camera

Ultra-wide and macro lenses

## Leading Snapdragon® 8+ Gen 1

Ultra-fast and power-efficient 4nm chip

## Smart 120W HyperCharge

5,000mAh (typ) long-lasting battery

## 120Hz CrystalRes AMOLED display

Dual speakers, SOUND BY Harman Kardon

### Camera

- 200MP wide angle camera
  - Samsung ISOCELL HP1, 1/1.22" sensor size
  - Supports OIS, 2x in-sensor zoom, 8K video recording
  - Night mode, Ultra Night Video, Xiaomi ProFocus
- 8MP ultra-wide angle camera
  - 1/4" sensor size, 120° FOV
- 2MP macro camera
- 20MP front camera

### Display

- 120Hz 6.67" CrystalRes AMOLED display
  - 20:9, 2712 x 1220, 446 ppi
  - AdaptiveSync display: 30Hz/60Hz/90Hz/120Hz
- Dolby Vision®, HDR10+
- SGS Low Visual Fatigue Certification
- In-screen fingerprint sensor
- Corning® Gorilla® Glass 5 front

### Performance

- Snapdragon® 8+ Gen 1
- LPDDR5 + UFS 3.1 storage
- MIUI 13 based on Android 12

### Battery & Charging

- 5,000mAh battery (typ)
- 120W HyperCharge, 120W in-box charger
- Xiaomi AdaptiveCharge

### Audio

- Dual speakers
- SOUND BY Harman Kardon
- Dolby Atmos®

### Time in Design

Bridging concepts of time and technology, Xiaomi 12T Pro Daniel Arsham Edition marks Xiaomi's first international artist collaboration on a smartphone device. The design is specially crafted in Arsham's iconic style, with bronze crystals set in green patina, with rear bronze accents seemingly eroded under the passing of time. To extend this imagery from hardware to software, a custom theme has been implemented throughout the device also featuring the bronze patina and eroded motif. This unique eroded live wallpaper will detect motion of the device via gyroscope, and will slightly shift to reveal new perspectives with an almost trompe l'oeil effect. Exterior packaging has similarly been crafted in bronze motif, transforming packaging into personality piece.

### Art x Technology

Under its timeless design lies the contemporary technology that has made Xiaomi 12T Pro such a contender, including its pro-grade 200MP imaging system, leading Snapdragon® 8+ Gen 1 processor, 6.67" CrystalRes AMOLED display with 1220p resolution, and over 68 billion displayable colors. All Xiaomi 12T Pro Daniel Arsham Edition will feature 12GB RAM + 256GB storage, and will be available in a limited 2000 device quantity in Europe. The collaboration will release December 16th, 2022 and be available on [highsnobiety.com](https://highsnobiety.com) as exclusive online retail partner, [mi.com](https://mi.com) and in a dedicated Xiaomi x Daniel Arsham Berlin pop-up store from December 16th until December 17th.

### About Daniel Arsham

Daniel Arsham is a New York based artist whose practice spans fine art, architecture, performance, and film. Arsham's iconic works meld the past, present and future, showcasing the malleability and power of nostalgia, often through references to moments of the late 20th century. Eroded casts of modern artifacts and contemporary human figures, his works are crafted out of geological material such as sand, selenite and volcanic ash. These materials allow for the appearance and aesthetic of erosion or archeological, future relics, as Arsham has dubbed them.

Arsham has been the subject of solo exhibitions at the Musée Guimet, Paris, France; UCCA Center for Contemporary Art, Dune, China; MOCO Museum, Amsterdam, The Netherlands; HOW Museum, Shanghai, China; The Cranbrook Art Museum, Detroit, Michigan; and the High Museum of Art, Atlanta, Georgia, USA; among others. Arsham's works have been exhibited at the National Gallery of Victoria Triennial, Melbourne, Australia; The Athens Biennale in Athens, Greece; Musée Fenaille, Rodez, Carré d'Art de Nîmes, and Paris La Défense, France; Frieze Sculpture, London, U.K.; The Athens Biennale in Athens, Greece; and Crystal Bridges Museum of American Art, Bentonville, Arkansas, SCAD Museum, Savannah, Georgia, Museum of Contemporary Art, Chicago, the New Museum and MoMA PS1, New York, USA; among others.
